

# Universal Mounting Kit

DATASHEET

## Reader bracket for wall or pole mounting

### KEY FEATURES

- ▶ Versatile reader bracket
- ▶ Easy to assemble
- ▶ Suitable for both indoor and outdoor use

### The Universal Mounting Kit (UMK)

The Universal Mounting Kit (UMK) is a versatile reader bracket that can be used for wall or pole mounting of the LR- and XT-series readers. The UMK is easy to assemble and configure. The possibility to adjust tilt and swivel angle enables optimal tuning of the reader position. The bracket is suitable for both indoor and outdoor use. Parts needed for mounting a reader is included. Each kit contains an assembly instruction that describes options for configuration and installation of the UMK.

### Wall Configuration

The Wall bracket can be mounted on flat surfaces such as walls or ceilings. The UMK is configured for WALL installation from factory. Wall mounting bolts are not included in the kit since the choice of bolts is dependant of the surface material.

### Pole Configuration

The Pole bracket can be mounted on poles or comparable equipment. The factory set UMK has to be reconfigured for POLE installation. The UMK is reconfigured by removing the Adaptor and assembling it with the Pole bracket

PART NO.	INFORMATION	DESCRIPTION
193600		UMK, Universal Mounting Kit
154600		LR-6 Reader
154900		LR-6XL Reader
152500/152600		XT-1 eu/us, Reader
